

TECHNICAL INNOVATION

ICEBERG™

**Dedicated light-coloured
wood species**
Adds a natural Nordic touch

Hybrid Water-based Polyurethane
wood floor lacquer: one or two components

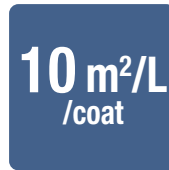

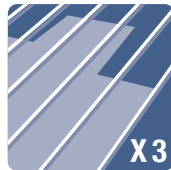

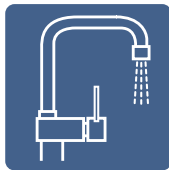

Blanchon

ICEBERG™ Wood Floor lacquer

- Beautiful **NATURAL** ultra matt finish: to highlight and intensify the original colour of light wood
- The Nordic touch will be enhanced on new woods (light-coloured types)
- High mechanical and chemical resistance
- Easy to maintain due to the smooth finish
- Hybrid water-based lacquer:
 - single component for normal traffic
 - two components to further improve resistance and highlight the untreated effect of the wood

Application:

- For the **best result**, apply 3 coats directly onto the wood
- For 2-component use: add **AQUA PRO Hardener 0.5L**
