

# Blanchon

The **leading wood floor lacquer** combining all the benefits of a **water-based product** with the finish of a **solvent-based lacquer**

## HOMES & PUBLIC PREMISES

THE SIMPLICITY OF A ONE-COMPONENT LACQUER  
OFFERING THE PERFORMANCE OF A 2K

**ULTRA HIGH RESISTANCE**

**RETURN TO USE  
2X FASTER**

After sanding

After three coats of Performer®

### Innovation

- A completely new generation of water-based polyurethane resins
- Single component
- Gives the wood a warm finish similar to solvent-based products

### Easy to use

- Easy to apply and odour-free
- Smooth consistency – Very high build
- Avoids excessive thickness marks: tannin blocker

### Outstanding performance

- Extremely fast hardening: return to use in 5 days
- High resistance to heavy use: better than the single-components on the market

### Ultra-resistant

Thanks to its 3-dimensional chemical structure, Performer® performs almost as well as a 2-component.

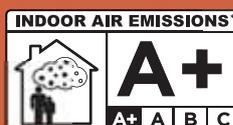

Blanchon Performer®,  
as chosen by Woodfitters

### Use :

- directly on the wood in 3 coats to enhance the very popular golden honey effect
- or in 2 coats onto 1 coat of Prim'Gold® or S.O. Primer
- due to the unique nature of the formula, special application tools are required (bowl, roller, graining brush)

\* Information on the emission of volatiles in indoor air poses a risk of inhalation toxicity, on a scale from A + class (low emissions) to C (high emissions) level.
