INTENSIV™

Water-based Polyurethane wood floor lacquer for floors subject to heavy foot traffic

KEEPS THE NATURAL COLOUR OF THE WOOD

CARBON BUILDING

+ Decoration

BARE TIMBER finish to enhance the original appearance of light wood

INTENSIV™ wood floor lacquer

- Exceptional mechanical and chemical resistance
- **THE multi-finish lacquer:**
 - **Gloss, Satin, Matt, Ultra-matt, Invisible effect,**
 - **Bare timber:** clear woods will be especially enhanced by this last finish, specially developed to preserve their original appearance
- 2-component water-based lacquer
- Fire rating C_{fl}S1 (obtained on an 8 mm oak or beech floor glued to a support)
- EC1R Certification

Application:

- Directly onto the wood in 3 coats
- Or 2 coats onto 1 coat of primer (ideally Prim'sealer to keep the light finish)
- Mix proportions: **9L + 1L** and **4.5L + 0.5L**

Trade pro tips:

INTENSIV™ 5L comes in special packaging (separable container) which can be used directly for mixing and application.
